Pieta- **MICHELANGELO** Moses- **MICHELANGELO BUONARROTI**

Religion

The founder of:

Christianity_-**PAUL APOSTLE** / **JESUS** Sikhism_-**GURU NANAK**
 Jainism- **MAHAVIRA** Buddhism--**SIDDHARTHA GAUTAMA**

IT

Founder of the following:

Tesla- **ELON MUSK** Facebook- **MARK ZUCKERBERG** Hotmail- **SABEER BHATIA**

Answers:

1. How many tourists are staying at this camp?

There are 4 tourists. You can find 4 sets of cutlery on the picnic blanket and 4 names on the duty list, if you look carefully.

2. When did they arrive: today or a few days ago?

They arrived a few days ago. A spider was able to build a spiderweb between their tent and a tree in the due time.

3. How did they get here?

They got there by boat. There are oars by the tree.

4. Is the closest village far from there?

No, a village is not far. There is a chicken walking around like no one's business, which means that a village is quite close.

5. Where does the wind blow from: north or south?

The wind is blowing from the south. A flag that shows the wind direction (windsock) is on top of the tent. How do we know which direction is which? Look at the trees: branches on the southern side are normally longer.

6. What time of the day is it?

It's morning. Based on an answer for the previous question, you know how to tell south from north. Now you can do the same with east and west and figure out the time based on the shadows.

7. Where did Alex go?

He is catching butterflies. You can see the scoop net behind the tent.

8. Who was on duty yesterday? (Name the person.)

Colin was on duty. Colin is looking for something in his backpack (it's marked with a "C"). Alex is catching butterflies. James is taking pictures (you can see a camera tripod sticking out of his bag). That means that Peter is on duty today, and Colin was on duty yesterday.

9. What is the date today?

According to the duty list, today is August 8th; because Peter is on duty and there is a watermelon on the ground (watermelons ripen in August).
